Mr. Maloney,

Thank you very much for your quick reply. The agencies are currently in receipt of our work plan and are reviewing it. Please feel free to contact me anytime and if you would like to visit the site, please contact me @ (513)616-7601 and I would be happy to show you around.

Thanks,
Mike

Mr. Jana,

I've been asked to provide input on the City's permitting process for your upcoming remediation work. I know you are working with the EPA and KDHE on this site. In order for the permits to be issued please submit the following:

1. A copy of the EPA approved Remediation Plan
2. Assurance the perimeter storm water containment is sufficient to prevent all runoff/contamination from leaving the site
3. Assurance the trucks leaving the site will be clean and will not spread contaminated soil into the City's streets
4. Trucking routes in case an accident occurs and Hazmat is called out.

Let me know if you have any questions.

Shawn Maloney
Environmental Health Division Manager
City of Wichita

Mr. Jana,

Thank you for reaching out. Shawn Maloney is the environmental health division manager and oversees the city's remediation programs; and he is in the loop on this one.

Shawn,

Please work directly with Mr. Jana.

Thanks,

Don Henry

Good Morning Mr. Henry,

I understand that Mr. Paul Hayes had forwarded you the documents I sent him as an overview to the remediation project that we will be performing at our above referenced facility. I just wanted to reach to you and see if there was anything you needed from us or if there were any questions I could answer for you. I am on-site, please feel free to contact me @ (513)616-7601 if there is anything I can do for you.

Thanks,

Mike
